

Prayer Request

Take this request to your churches Prayer Chain???

Hope you might pray for my brother Phillip? He can no longer think of many of the words he wants to say. Hope you might pray for salvation and for healing but also that he would be willing to leave the house he loves and St. Louis to accept life in a facility nearer Topeka. Maybe God could help him come up with the idea on his own?

Hope too that you might pray for my mother Dorothy. She is so looking forward to a visit from a niece beginning this Friday but her congestive heart failure has taken another bad turn and even simple activities leave her so weak. *Hope you might pray that she does not try to over do and that God helps her relax and enjoy the visit. Hope you might pray too for healing for her heart problem...*the worst part of which seems to be irregular beats caused by leaky mitral valve. She is not a good candidate for surgery but the Doctor's say that sometimes the valve problem goes away on it's own. She is so very worried about Phillip.

Personal prayer request: In the process of melting a kidney stone the Doctors found a "right bundle blockage" in my heart. They said that sometimes this is benign but sometimes it is a sign of more serious heart problems. I can't afford all the tests to find out which is the case with me. Hope you might pray God's healing for my heart and grace to give up the cigarettes which have plagued me for many years. I would ask also God's help me with grouchiness. It seems to be getting worse.

Pray God save individually printed Bible verses? In the last five years printed Bible verses have become nearly extinct. Twenty nine of our nations top Christian publishers no longer print them. They are disappearing and children need them. Pray for God's guidance and strength and that He would help us share our concern with as many churches as possible?

In His Service and Yours:
