

## Hope you might pray for my other brother Ken White

**Ken is an ordained Methodist Pastor from a prominent seminary.** He has shared that over 40 years ago he had a vision of Jesus offering him a new life or to pursue GAY RIGHTS. He chose gay rights and since then has been a national leader coaching others on the most effective way to INFILTRATE mainline churches.

Could you pray that Jesus give him a second but CLEAR choice. **Ken is very VERY angry** that churches are rejecting him and other gays. It would take a lot to bring him back to trusting God but I hope you might pray.

I have said all I can to him. He is the conservator for our middle brother and if I say anything to Ken he will find a way to hurt Phil. I was care giver for both Mom and Dad and had to watch Ken hurt both of them intentionally over and over. On her literal death bed, her last conscious moments, Ken wheedled her marriage ring out of her not caring what it did to her. I have forgiven him and for 30 years have been believing that God was working on him...slowly...but somehow I think it is going to take a real move of God's POWER.

**The cramping on right side of my head is some better** but still troubles me. I think it is rooted in a lack of trust in God and wanting to control situations and others. Hope you might pray for grace to trust that God will transform me as he promises. I pray it has nothing to do with the carotid arteries or last years heart attack.
