

THIS WEEK the National Day of Prayer will consider our offer of 100,000 free Lord's Prayer coloring books

This would be a huge step forward for our "Prayer Cup" project. Hope you might pray for Dr. Ronnie Floyd, the new national director of the Task Force. If you are not familiar with the prayer cup idea it is simple. The child takes a Styrofoam cup and on one side writes "From me to Jesus" on the other side "From Jesus to Me". He or she puts a prayer in the cup and cannot take it out until they KNOW God has answered even if their whole family and church family must pray with them. No child should leave a home or church without at least one prayer answered. Hope you might pray for this joint project.

I have had no more double vision and see eye Doctor the 27th BUT... My head feels funny, my memory seems harder to reach and I am grouchy. Hope you might pray for grace to sleep and to trust God for his presence if not his healing??
