

**I have been invited to participate in the Africa gathering of the Lausanne movement but have not been able to get the online registration to work or get someone to help.**

**A second issue is the Doctors concern that my pacemaker is working more often...a possible sign that the heart is getting weaker. Hope you might pray for healing and grace to attend the Lausanne gathering.**

**It is a great honor to be invited ... Hope you might pray for guidance. I must respond to the invitation by the end of this week...it seems a wonder-full chance**

**To share our prayer cup and multiple translations...to get others involved.**

THANK YOU ALL...

very much.

Charles
